Experience

Fullness Web Solutions   Jun 2022 - Present
Full-stack Developer   Remote
🔗 https://www.fullness.io

- **Improved Core Web Vitals (CWV) metrics**, focusing on **Largest Contentful Paint (LCP)** by leveraging Next.js for enhanced page performance, reducing the number of affected URLs from **over 250 to under 45**.

- **Implemented and optimized structured data** using Schema.org for **FAQs and author pages**, positively impacting **thousands of pages**. This led to a significant increase in organic traffic and improved search engine rankings for key pages, enhancing overall **site visibility** and **user engagement**.

- **Authored and maintained comprehensive Cypress end-to-end test cases**, integrating Cypress Cloud to identify and resolve flaky tests, which significantly improved the stability and efficiency of the development process.

- **Assisted in migrating the codebase** from an older version of Next.js to **Next.js 14**, significantly reducing technical debt and increasing page performance.

- **Revamped the UI of a reusable product iframe**, enhancing the visual appeal and functionality of product comparison descriptions and graphs across **multiple external websites**.

- **Contributed to the RateCity website daily** by performing UI fixes, building scalable components, and maintaining the overall site.

- **Worked on an internal project called Upsyz**, building pixel-perfect web pages using Remix.js and Keystone.

Kudosware   Apr 2021 – Sep 2021
Flutter Mobile App Developer(Intern)   Remote

Skills

React.js | Next.js | Cypress | TypeScript | GraphQL | MongoDB | Express.js | KeystoneJS | Remix.js | Styled-components | TailwindCSS

Projects
